| Accessible Features: | <ul style="list-style-type: none"> Beach Coves Forest Mountains Ocean Shorelines |
| Services and Facilities: | <ul style="list-style-type: none"> Electrified campsites Camping/Vehicle access Picnic area Pit and flush toilets Showers Contact CN Rail in Vancouver to request use of their adjacent private land for production unit parking, marshalling, equipment storage, catering space, etc. |
| Important Dates – Special Conditions and Closures | <p>Seasonal restrictions to filming are in effect, supported by the BC Film Commission and the Ministry of Transportation (MoT). Also, no filming activity in campgrounds during these dates due to full occupancy and public campsite reservations.</p> <ul style="list-style-type: none"> Year round: Filming is not generally permitted on weekends or holidays to avoid interference with public use and access. April 1st to September 15th: No filming activity may be permitted in this park during these dates due to high public use. |
| Restrictions and Conditions | <ul style="list-style-type: none"> Due to the complexity and multi-jurisdictional overlap several different permits are required to film in this Park. The applicant may be required to consult and acquire permits from CN Rail, BC Ferries, Department of Fisheries and Oceans, and MoT in |

| | |
|--|---|
| | <p>addition to a BC Parks PUP.</p> <ul style="list-style-type: none"> • Due to limitations of park sewage treatment capacity, the production company shall provide temporary sanitary facilities (port-a-potties). • This park is operated by a Park Operator. All filming applicants must consult with the Park Operator to assess viability of proposed filming activities prior to submitting an application. • This is a very busy Park from the May long weekend until the Thanksgiving long weekend. Filming opportunities are limited during that time. BC Parks will require conditions to filming activities that may limit the viability filming in this park in order to ensure public access and to maintain the park experience. • This park has unique and sensitive Park values. All filming applicants must consult with the BC Parks Area Supervisor to assess the viability of proposed filming activities prior to submitting an application. Filming opportunities are limited in this park to ensure the protection of park values. • Use of beach areas is restricted due to marine conservation values. • Use of the day use parking lots by film companies will be limited at the discretion of BC Parks. • BC Parks may implement, at their discretion, "park rest windows", whereby park natural resources, facilities, visitors and other Permittees get a break from otherwise steady filming activities and related disruption. |
| <p>Use of the Porteau Cove Emergency Ferry Dock</p> | <ul style="list-style-type: none"> • All initial inquiries/contacts by film production companies seeking to use the dock must be first made to BC Parks, then to the Ministry of Transportation. • Intention to film requests require a minimum of ten working days' notice. • A mandatory site survey involving representatives from BC Parks, MoT, BC Ferry Corporation and the film production company will be required for ferry dock filming requests. • Highway works (i.e. maintenance and construction) always takes precedence over any filming activity. • The dock facility must be accessible in case of an emergency impacting the highway for use by the traveling public. In case of highway emergency (i.e. washout, flood, rockslide, etc.) the production company must vacate the area and leave it clear immediately or within one hour of verbal notification of the emergency. • For major shoots there will be a minimum \$20,000 performance guarantee. • An underwater biophysical survey may be required of the film production company before and after film production activities to assess and document effects on marine life. • Operation of the ferry ramp is under the authority of the Ministry of Transportation who, in turn, contract out operation and maintenance to the BC Ferry Corporation at established rates of service. The film production company shall be expected to pay for such services at the established rates. <p>The following BC Ferry Corporation (BCFC) ferry dock operational concerns must be met:</p> <ul style="list-style-type: none"> • An experienced operator, normally a dock repairperson from the Horseshoe Bay Terminal Maintenance Department, must staff the ramp. This operator will not deviate from BCFC standard procedures for the safe operation of the ramp. • If a ship other than a BCFC ferry is to dock at Porteau Cove, the film production company must provide drawings and any other details necessary to complete an evaluation of the proposal to ensure the berth will not be damaged. • If the film production company wants to deviate from the normal operating procedure of |

| | |
|--|---|
| | <p>the ramp for any reason, such must be agreed to in advance since the operator on site will not have the authority to change procedures. If the changes require engineering evaluation, the film production company will do so. BCFC Terminal Maintenance Department will offer names of qualified consultants.</p> <ul style="list-style-type: none"> • Any work required to repair damage caused by film production activities will be billed at rates as established in the MoT/BCFC contract. • If there is any question about damage to the ramp there must be a post filming site inspection by BCFC Terminal Maintenance personnel and representatives from the film production company. • A traffic management plan will be required to deal with traffic congestion and visitor access through and around filming sites. • Launching of vehicles off the ferry dock is not permitted. • Any approved modifications of the facility must be restored to original or better condition. • The film production company must provide a communication plan outlining any proposed advertising of the filming activities. This plan must be approved by BC Parks and MoT prior to implementation. • Any accessories or attachments to the dock are considered a part of the facility. • Contributions to the MoT for maintenance of the pier are requested based on a needs assessment. |

No filming is permitted near facilities, in the bouldering area, on the Chief Peaks Trail and peaks, or in the parking lots.</p> <p>March 15 to July 31 (annually): Seasonal closures for filming are in effect in falcon activity areas (often the First Peak and adjacent rock walls) - Filming will not be permitted during this time.</p> |
| Restrictions and Conditions | <ul style="list-style-type: none"> This park has unique and sensitive Park values. All filming applicants must consult |

| | |
|-----------------------------------|--|
| | <p>with the BC Parks Area Supervisor to assess the viability of proposed filming activities prior to submitting an application. Filming opportunities are limited in this park to ensure the protection of park values.</p> <ul style="list-style-type: none"> • This is a park with very high public use for day hiking (up to 50,000 visitors annually hike to the peaks) and internationally renowned rock climbing. • This is a very busy Park from the May long weekend until the Thanksgiving long weekend. Filming opportunities are limited during that time. BC Parks will require conditions to filming activities that may limit the viability filming in this park in order to ensure public access and to maintain the park experience. • This park is operated and by a Park Operator. All filming applicants must consult with the Park Operator to assess viability of proposed filming activities prior to submitting an application. • Large production unit parking and related filming activity adjacent to the highway and helicopter use above and immediately adjacent to the highway corridor flight space is discouraged due to the high traffic volume along the Sea-to-Sky Corridor and the related potential for traffic jams and accidents. • Large film crews and related equipment and props on the summits will be discouraged. Crew sizes of 20 persons or less are preferred. • There are no roads to the peaks! • Park "rest windows" (multi-day breaks between film permits) may be unilaterally implemented by BC Parks. • Expect requirements for constructing temporary elevated walkways, ladders and stairs and laying down carpeting and rubber matting to protect fragile vegetation. • Expect helicopter flight corridor and operating time restrictions. Landing helicopters in the park parking lots is not possible due to the presence of power lines. Landings on the top of the Stawamus Chief may be permitted in designated areas on the Second Peak. Production assistants are required to hike up the backside trail and secure helicopter landing sites for public safety prior to helicopter activities. • Film production activities on the First Peak will be discouraged due to the high public use on the sloping, confined and exposed summit area. • Portable toilets will be required, including flying in to pre-approved sites. • Peregrine falcons, an endangered (red-listed) species, reside, nest and fly around the cliffs and will affect proposed filming, helicopter and climbing activities. Impact assessments may be required to ensure protection of these rare birds of prey. <p>A rock climbing strategy is in effect for the park:</p> <ul style="list-style-type: none"> • Extreme sport competitions will not be permitted. All activities must be safety and adhere to the ethics of rock climbing. • Filming activities will be encouraged on rock climbing routes established by the rock climbing community or at areas previously used for filming. • Film companies are strongly encouraged to hire local riggers, certified alpine climbing guides and local, high-angle cliff, search and rescue contractors who are intimately familiar with this area. • Where rock climbing related activities are planned, a written rescue plan will be required to be available at the Permit Area. |
